## A CRIMINAL BY NATURE

"The man who commits an anarchical crime would commit any other sort of crime of violence if he had not chanced to adopt the tenets of Anarchy."

McKINLEY

By A. Benedetti d'Altomonte.

**F**OLLOWING the recent attempted assassination of the police in New York and the message of President Roosevelt declaring measures must be adopted, and at once, looking toward the suppression and complete destruction of anarchy and its followers, a viewpoint shared by other public men who have realized what a menace this has become in this country in recent years, it would seem important and timely to put before the American public the fundamental facts, at least, regarding the anarchistic doctrine, character and martyrs, together with a possible plan which will crush this dreaded body of criminals, which is the greatest cause of anxiety to the head of every State.

The first, and most natural question is, What is anarchy?

Anarchy is a political theory and propaganda demanding the abolition of all institutions and instruments of government. Opposition to all governmental power and authority is the common characteristic of the various groups of anarchists, Proudhon, the father of modern anarchy, having maintained that social order would naturally result from the ethical advancement of the race and the absorption of the political function in the industrial and that external enforcement of order would then be unnecessary again.

Anarchy may theoretically aim either at the unfettered self-government of the individual or at the realization of its object in voluntary communistic association; while the practical propaganda may be either peaceful or based on force.

These motives and means vary both in America and Europe. There is also a recognized distinction between those who accept the theory and those who assist in its revolutionary enforcement.

Johann Most, a former member of the German Reichstag, for some time published in New York city a newspaper, Die Freiheit, which was devoted to a very radical programme. The execrable propaganda by deed, however, has been the chief mark of anarchy in popular estimation, and one of the most notable instances of it in America was the famous Haymarket explosion at Chicago, on May 4, 1886. In America little has been done to stamp out dangerous theories and violence of this kind beyond the application of ordinary legal processes and police supervision of suspects, but in most European countries severe repressive measures have been taken since 1883.

**PROFESSOR CESARE LOMBROSO**, the eminent criminologist, speaking of anarchists in general in 1895, made reference to the great liberties permitted to the members of the sect in America. At that time he made the prophecy that the time would come when the United States would have more trouble with anarchy than any other country in the world. He said nearly all the anarchistic crimes committed in Europe were organized in America and cited facts to prove his statement.

Continuing, he asserted that the time was coming, and very soon, too, when the anarchists in America would use this country no longer as a mere haven of refuge in which to plot, but would turn their rancor against the very government which had so foolishly shielded them.

Lombroso thinks it absurd to consider the crimes of anarchists due to political incitation, because in the makeup of every anarchist he has examined he has found indisputable evidence that the subject was either a born criminal or prenatally defective mentally.

Nor, from the eminent Italian's viewpoint, is anarchy a modern sort of crime; it is only the name that is new. In the examination of the old regimes and violent revolutionaries by means of the best relics of their personalities, several preserved skulls, Lombroso found they were identical with the greatest modern criminal anarchists. It was a boon to them when modern thought developed the dream of anarchy, which afforded a theoretical excuse for their inborn king killing propensities, whether it was Fieschi, Kammerer, Reinsdorf, Hoidel, Stuhlmueller, Grady and Fitzharris, Caserio, Bresci, Valliant, Ravachol, Pini, Czolgosz or others.

SINCE the execution of Caserio the death penalty has virtually been abolished in France, deportation to French Guiana being substituted. From the foregoing data it will be seen at once that this death penalty has accomplished very little in stamping out or controlling the crime of anarchy in France or elsewhere.

Lombroso's point of view in regard to the only possible and effective punishment for anarchy is shared by many other criminologists of this country and Europe. The Duke of Arco, at that time Spanish Minister to this country, in an article published in the North American Review in

1904 says: "There is only one way; criminal anarchists must be deported. As it is now the anarchist who is driven out of one country by the authorities finds lodgement in another, and from that vantage point pushes his propaganda in print and by mail almost as actively as he could have done on the scene and in person. A system of deportation and of police control that would make all over the world a solid and interacting force against them would deprive the anarchist of the immunity which he now enjoys. By confining such international co-operation entirely to persons well within the anarchist class no danger to the general or political liberty of others could be apprehended."

Few men were better qualified to express an intelligent and authoritative statement on anarchy and its possible solution than the late Robert H. Pinkerton, head of the Pinkerton detective agency, and throughout his life in contact with this dangerous class of society. He said:

"The policing of anarchists, while by no means a simple matter, may yet be accomplished. To make it effective, however, several fundamental conditions must be observed. The matter must be undertaken in a clean cut, businesslike manner and the system kept absolutely free from taint of political influence. The great trouble with our national government detective service to-day is that politics figures largely in the appointments, and this must result in a lack of efficiency and discipline wherever they take up investigations of plottings by anarchists."

"Anarchists understand only one argument and that is the argument of brute force. It is all very well to safeguard the rights of free speech and of free press, but sentimentalism in this direction should not be permitted to carry so far as to allow the open or secret advocacy of the overthrow of all government. The establishment of a penal colony for anarchists on the line suggested by the famous Professor Lombroso would go far toward coping with the evil of anarchy that is at present afflicting us."

Emile Loubet, President of the Republic of France, after the attempted assassination of himself and King Alfonso of Spain near the Louvre in Paris several years ago, expressed his ideas on the subject as follows:

"Anarchism is like a bad apple in a barrel of good ones. Anarchism in society is dangerous and malefic. The death penalty can never cure this evil. It makes only martyrs and heroes of common criminals. My experience as head of the State and my study of the subject point to only one adequate punishment—deportation. In France the 'devil anarchy' can be cured only with the Devil Island (the famous deportation island near French Guiana where all famous French criminals are deported); there is no other way."

POPE LEO XIII, in an encyclical letter, once denounced the pest of anarchy, asserting that the doctrine of the anarchists is against humanity and morals. He finished his wonderful letter with the following Biblical story:—A shepherd had a large flock of sheep. Some of them were infected with a contagious and dangerous disease, so he went to the patriarch Ezekiel and asked him what he should do, as every day other sheep were attacked with the disease, despite his giving them every attention and remedy. The answer was:—"Separate the diseased sheep from the healthy ones and put the former in a place where they cannot escape."

Pope Leo ended his letter by saying that "only the deportation of such criminals as anarchists and the descent upon them of pure faith can possibly cure anarchy."

crackled and the forehead showed back everything, take full revenge; scatter sharp. The jaw was enormous and his half-mastern heavy and coarse.

One peculiar thing about devotees of the cult is the rapid transition from a London and who was put in a criminal asylum by the English judge, who deified a certain aim and so make a hero of him, god was frozen. The same beliefs are voiced in the latest expression of anarchy, the Journal Nihil, published but once by the fugitive editors of the suppressed La Question Sociale of Paterson some weeks ago.

I show how small results have been achieved by the indication of the death penalty on anarchists, but rather how it has made the idea of martyrdom which springs from such executions the cult has thrived on this method of punishment, I emphasize the anarchistic crimes in France alone which followed the condemnation to death of Jules Pary in January, 1890.

Merzen, for his part, says: "The story of the three terrible maxims of anarchy."

First—Stealing is permitted to the anarchist and is an honest act, because as he is only taking from the rich what they have taken from the poor.

Second—The man who kills the hands of States who favor the exploitation of the poor is a saint.

Third—The bomb is the most noble medium for inflicting vengeance on an oppressive society.

His case is one of heredity, as his grandfather and great-grandfather ended their lives on the scaffold for murder and robbery. Ravachol was a thief and a forger before he was an anarchist, having robbed a grave to steal the jewels from a body and killed an old man of ninety to rob him. He bent and abused his mother and a very young sister.

Pini, one of the famous chiefs of the Parisian anarchists, had a thief for a father and an idiot for his mother. His face was very nearly beardless, his nose

very large, his eyes—his throaty

## THE CANAL TALK

Now that the water is off the canal, we observe the filth at the bottom of it and are greatly exercised about it. So it is with many evils. Knowing them to be present, still we are complacent so long as we can avoid the sight of them. The contamination of our wells and reservoirs we cannot see, so we go on filling our systems with drainage and think nothing of it. Presently, there comes a little clogging, giving the little disease germs a chance, and we wonder what made us sick.

A certain quantity of a live spring water, taken regularly, will be a safeguard against the many ills which have their beginning in such a condition. In Chalybeate Spring Water lies a way to comparative safety, because it is pure in itself and gently cleansing in its effects. We know it. Our chemist and your physician will tell you so. If you have tried it, you know it. If not, ask someone who has. Office 16 1-2 North Park place. Phone 7131 Red.

**REPUBLICAN POLICY  
BROUGHT ON THESE  
EXISTING EVILS**

It has come to pass in this country, and President Roosevelt is authority for the statement, that "only weak malefactors are punished," while "the rich and powerful go free." And who is responsible for this deplorable tendency of our federal courts? Nearly every federal judge in the country is a Republican; the Republican candidate for president is the alleged "father" of the "government by injunction" system through which the "weak" are punished; the laws of the country, with the loopholes through which the rich and powerful are enabled to escape by the employment of the able lawyers, are all the enactment of Republican congresses. If the Republican administrations are not to blame, where does the blame rest for conditions declared to exist by the President? It is time for a change, and the voters of the country should inaugurate the change in November by electing a Democratic president and a Democratic congress.

The American Tribune's headlines over the Republican county convention contained the following: "Ring-ling Resolutions Endorsing Roosevelt, Taft and Others Were Adopted." The "others" named were Foraker and Dick, but our neighbor evidently preferred not to parade the senators' names in big type.

The promises of support coming unsolicited to Mr. Bryan shows which way the political wind is blowing in this year 1908.

It is quite evident that what was known as the "combine of bidders" for the water works extension contract were pretty effectively knocked out by the last re-advertisement for bids by the Board of Service. The combine was not present to bid on the last occasion. A remark credited to one of the number is to the effect that there was "no show" for them so long as "Newark was infested with the kind of newspapers it had." Certainly it is to the credit of both Newark and its newspapers to be thus identified. And it is by no means detrimental to Newark taxpayers if the city is infested with newspapers that are so alert and potent in opposition to graft and grafters.

The indications are that the campaign this year will be a most strenuous one, and almost every northern state is now classed as doubtful.

Election judges and clerks will have a big task in counting and recording the ballots of the coming November election. In addition to the national tickets, the ballot whose wide expanse the Ohio voter will scan when he steps into the polling booth, will contain five state tickets and constitutional amendment propositions gal-

lore. It is going to be an all night job to count the ballots, and then some. It will be the biggest ballot ever handed to the Ohio voter and will be valued enough to answer all purposes. The five state tickets will be Republican, Democratic, Prohibition, Socialist and Populist. The last named two got on by petition. If the Independent League launches one there will be six state tickets on the ballot and it, too, will have to be gotten on by petition.

**THE GREAT SCIENTIST  
WILL BE HERE IN  
THE MORNING**

The Wonderful Health-Creating Discovery Will be at the City Drug Store.

So much has been published and said about the scientist and his great discovery and so many stories have been told of the wonders accomplished in a very few days with his great health-giving Root Juice that many are getting anxious and would like to see the gentleman and his wonderful remedy that has made many remarkable cures during the past few months. The newspapers of a number of cities have told of hundreds of cures the Root Juice has made, and some of the stories affect are almost too good to be true. It is said that many people who had given up hope of ever seeing another well day, even some whom the best doctors of the country had pronounced incurable, after taking the juice a short while were restored to perfect health. The remedy seems to remove all soreness from the stomach, bowels and bladder, and soon so heals the kidneys and liver that the blood making and blood filtering organs work in healthy union. Then all forms of indigestion, belching, heartburn, sick headache and constipation is cured as the cause has been removed. It seems that it cures rheumatism by preventing fermentation in the stomach and bowels and by giving the kidneys the health and strength to filter all accumulated acid from the blood. The reporter was told that the demonstrations would begin Monday morning at the City drug store. Root Juice is \$1 a bottle. Three bottles for \$2.50.

**OBSERVER ON  
LINGAFELTER CASE**

Ambiguous Statements Made Public—Suggestion Is Made to Meet the Present Case.

(Communicated.)

The ambiguous published statements of the Ohio penitentiary physicians and their consultants, who have seen and examined Banker Lingafelter, would lead the average observer to believe that Mr. Lingafelter's case is very "obscure" indeed; that the doctors are wanting in skillful and exact methods of diagnosis; or that the state is sadly deficient in the requirements for the proper care of the sick convicts.

In any event, why should the state's money be held up to the public gaze as a persecutor? This is not a matter of sentiment; it is a question of equity and justice. "It is not a theory, but a condition" that must be met. If it can not be met by the desired action of the prison board, then it must in due time be met by proper legislation.

The prosecuting attorney is not to be censured if he will not recommend the pardon of a sick man, or nolle the indictments against a sick convict because the sickness is "obscure," (and a convict's sickness may be obscure for many reasons); or because the doctors may be wanting in exact and skillful methods of diagnosis; or because the state does not provide the proper care and "environment" for its sick wards.

Will not close observation of the case, careful study of medical literature, and thorough discussion of the conditions and symptoms of the patient in the medical society meetings clear up the "obscurity" of the case? There certainly has been time to do all this since the agitation for Mr. Lingafelter's release.

What are the "unfavorable conditions, surroundings and environment" which so significantly militate against Mr. Lingafelter's improvement or recovery? I can not believe that it is bad hygiene. It may be bad water, but that can be easily remedied. I would not accuse the state of supplying improper or badly prepared food.

It must be lack of care and nursing, a most essential factor in any and all forms of sickness under whatever circumstances and conditions. If the state cannot afford professional nurses for all of its institutions the appropriations should be increased to meet that great and crying need. If we can not legally increase the appropriations to meet this necessity, then in the name of humanity, let us amend the law so that the sick criminal may be cared for while he pays the penalty of the law breaker. The spirit of the law is that the punishment fit the crime, not exceed it.

To meet Mr. Lingafelter's emergency, let him be taken to a non-penal hospital, where the "conditions, surroundings and environments" and the nursing are conducive to his improvement and recovery, or at least to his personal comfort.

This was done with a murderer very recently, who had been committed for life. Why can it not be done with a bank wrecker committed for four years?

This same state of affairs applies equally to those hard working convicts that have succumbed to the heat in the past few days.

Death is the inevitable for us all, no matter how pleasant or surroundings or how unfavorable our environment, and sooner or later proves the limit of human power and the skill of the physician.

The state and its legally constituted and appointed agents have a duty to perform toward these sick prisoners, and until that duty is well and truly done its obligations to justice are only partially discharged.

"Go to" this work, doctors: make a fight on these lines for humanity and you shall win a victory greater than was ever won on a field of carnage. If you can not do that, then for the honor, dignity and respect of your profession, keep out of the papers with your "obscure cases, their unfavorable condition, surroundings and environments."

OBSERVER.

## TENT MEETING

The meetings thus far have been characterized by strong, effective preaching and last night's sermon was no exception to the rule. Rev. George Tryon's subject was "A Great Invitation." He took for his text the simple word, "Come," which he said, was the expression of the entire Bible and could be found almost anywhere between the two covers.

A prominent minister, whom we have not yet heard, is to address us this evening.

The regular Sunday afternoon service will be held at 4 o'clock tomorrow.

Rev. J. E. Comer of Circleville, O., will conduct the services every night next week. He bears the reputation of being an eloquent, convincing speaker, and we are expecting great results. We hope to have the tent filled to its utmost capacity each evening. Closing service at 7:30. Special music.

## A BOOK OFFER OF UNUSUAL INTEREST

If you will look into our window this week you will see five charming books—pleasing, entertaining stories for Summer Reading—handsome volumes, each with an exquisite Harrison Fisher cover in four colors, and special enameled paper wrappers showing the same gorgeous Fisher drawing.

These gems of art are so appealing that you will want to own them for their beautiful covers alone. The stories themselves are so delightfully entertaining, however, that you will wonder how so much can be given for so little. They are all by favorite authors.

The Strollers, by Frederic S. Isham. The Furnace of Earth, by Hallie Erminie Rives.

Double Trouble, by Herbert Quick.

The Amethyst Box, by Anna Katherine Green.

Zelda Dameron, by Meredith Nicholson.

They are \$1.50 books, which we are going to sell at 50 cents each, and as our stock is limited and cannot be duplicated, you must act quickly if you want them. If you are unable to call at the store, telephones us, and we will gladly lay one aside one for you. But come if you can. To see is to buy.

## U. S. COURT DECIDES FOR DEFENDANT

**FRED S. WRIGHT LOSE HIS SUIT IN THE DISTRICT COURT AT COLUMBUS.**

Action Involving Sum of \$38,000 May be Taken to the Circuit Court of Appeals.

The case of S. Frank Eagle against Fred S. Wright was brought in the United States Circuit court at Columbus. The plaintiff, Eagle, claims that Wright and the Sharop Boulter company of Pennsylvania, bought the Eagle furnace in Wisconsin at a United States receiver's sale, and that they were each to put in a certain sum of money; that it had been sold in 1900 for \$55,000 in bonds of a new company and that Wright had received a large payment of the bonds and had not accounted to Eagle and the Sharop Boulter company for their shares. There was no dispute as to the facts in the case as to all parties being interested, but Wright claimed compensation of \$10,000 for selling the plant, and also that he was to have paid to him before the division of any money the sum of \$23,000, advanced by him in the purchase of the plant. Those two matters were in dispute before the court. The court decided that Wright was to have the money so advanced, with interest, before he was bound to make any division but decided that he was to have only his expenses and not any compensation or percentage.

Mr. Wright will probably appeal the case to the Circuit Court of Appeals on the question as to his right of compensation, he having spent six years in making the sale at great expenditure of time and money. Jones & Jones and Norpell & Norpell, and Judge Pugh and Marion F. Freshwater of Delaware for the plaintiff.

## VACCINATING HOGS IN OHIO

This about the latest thing out—vaccinating hogs.

The big state of Ohio is doing that right now. It has been doing it for several weeks. It isn't play, either, but a serious business—a matter of life and death for the hogs.

Here is why: Every year a deadly disease steals into Ohio. In its trail it leaves the bodies of hundreds of thousands of hogs. The money loss to the farmers is almost incalculable. The disease is hog cholera.

The state of Ohio is experimenting with a serum to make hogs immune from cholera. The United States government has been studying and experimenting for six years. This summer the animal department of the state board of agriculture established an experiment station near Reynoldsburg.

## POLICEMAN MISSED DOG

**THOUGH THE CANINE DROPPED AT THE REPORT OF THE PISTOL.**

**This Morning the Animal Was Lively as Ever and It Will Not be Killed.**

Residents of North First street think they have a good joke on at least one member of the Newark police department from a little incident that happened last night.

A dog owned by Newton Andrews, 70 North First street, had been bitten by a bull dog yesterday that wandered into the yard of Mr. Andrews and attacked the pet. Seeing in the Advocate that a dog had been killed that showed signs of rabies, and as the dog that bit the little pet answered to the description, Mr. Andrews phoned the dog up and sent for the police to come and kill it.

The officer took careful aim with his revolver, pulled the trigger, and with the report of the gun the dog dropped and the policeman went to the body to examine the result of his shot. The dog looked dead and the officer left the canine lying on the grass.

Something went wrong though, for this morning the dog was as lively as ever and without a scratch. The missing of the bullet may give the animal a new lease on life, for it will be penned up and it is possible rabies will not develop.

lished an experiment station near Reynoldsburg. The process of making hogs immune from cholera or that had recovered from an attack of the disease, is given an injection of serum from the blood of a hog dying of the disease. This is to hyper-immunize the already immune animal. Then any ordinary hog is taken and given simultaneously injections of serum from another hog afflicted with the disease. The object is to make the blood of the new hog immune. It is still somewhat in the experimental stage, but it is hoped that it will do wonders in the course of time. The state department is not yet ready to introduce the vaccination experiment among the farmers of the state. It hopes to do so later, however.

## REUNION OF LEGISLATURE

**OFFICIAL PROGRAM IS OUT AND PROVIDES FOR THREE DAYS' SESSION.**

**Legislative Ball Takes Place on the Evening of August 6th—Lots of Speeches.**

The official program for the annual reunion of the Ohio Legislature at Cedar Point just out provides for a three days' frolic, August 6, 7 and 8. However, the formal program of pleasure will be overshadowed by the politics which promises to develop.

This anti-fall campaign session of the legislators will bring most of the members of the state Republican committee to the Point and furnish opportunity for framing plans and policies. Messrs. W. F. Brown and Arthur Verry will attend, and as the reunion will be preceded by the Thirtieth District Congressional convention here on August 5th, there will be politics in the air from the start.

The legislative ball takes place on Thursday evening, August 6, and the big banquet Friday evening. A fireworks display, and visits to the Soldiers' Home and the Johnson Island Confederate cemetery are among the sight seeing features.

The toastmaster will be Senator Samuel H. West, of Bellefontaine. Gov. Andrew L. Harvis will be the principal speakers. Others who are on the program for short talks are Senators Williams, Hynes, Lamb, Howe, Rose, Ward, Patterson, Mather, Russell and Hafner, and Representatives Eagleson, Lybarger, Stockwell, Woods, Chamberlain, Thomas, Tinker, White, Bronson, Phillips, Paxton, Welker, Foster, Wertz, Mooney, Little, Bassett, Fritzell, Shuler and Spangler.

# UNCLE JOE LOCKE IS BUMPED BY TEAM MATES

## Molders Bunch Hits on Old Newark Twirler and Easily Win Their Game Yesterday

### Peggy Moore Held the Chesty Lanks on His Wagon At All Times---Abbott Keeps Lanks From Scoring by Sensational Catches.

He, who many, many times pitched the Molders to victory couldn't work against his old team mates, not that he didn't try, for he did his best to down them, but they took kindly to his slants at different times and sent them to various parts of the lot.

Against Locke, who is now wearing the gray and black of Lancaster, was pitted big Peggy Moore, the star twirler of the Molder staff, and it is only fair to him to say that he had it on Locke at every stage of the game. While Joe was striking out 7 Molders, Peggy was mowing nine of the Lanks down; while Locke walked three men, Moore gave but one pass.

Snyder, Abbott, Wratten and Williams all took kindly to Joe's delivery and crossed him several times. Both Abbott and Wratten found him for two bases while Snyder and Williams each rifled his hit box twice. Snyder also laid down two sacrifice hits on him while Piper was worried by Smith, Snyder and Williams stealing on him.

Early in the game Handiboe, who has been friendly to the Lanks from the start, was put out of business by a foul ball and he took his sign down and went home.

A fair sized crowd was out fully expecting to see the Molders taken into camp on the last game, and they were badly disappointed for it was Newark day throughout with Abbott as the bright particular star.

This ex-Lank almost prostrated the fans and players by his sensational work in right garden, and twice he made hair raising catches that prevented Lancaster from scoring. Four times he traveled the length of the field to pick flies out of the air that looked good for extra bases and would have been if the best right fielder in the league hadn't gotten hold of them.

Besides his work with the stick Lefty Snyder had his usual good day in field and three times he pulled seemingly impossible chances out of the air. Locke in middle field didn't have a chance to show the Lancaster bugs what he could do.

A peculiar feature of the games played in the Ohio State League yesterday, was the fact that all the winners won by the score of five, and each had two errors.

The Molders are in Mansfield today for a series of three games and during this series a double header will probably be pulled off. The Tigers are playing great ball at present, and following the example of Newark, who took three out of four from the Diggers, the Tigers took the three scheduled games from them and sent them on to Lima.

The series is bound to be an interesting one and both Flood and Bells are sure of the long end, and as the players of both teams are going better than ever the games will be hard fought throughout.

## MOLDERS ARE PLAYING 100th GAME TODAY

It's all too true---the first season of the Ohio State league is almost a thing of the past, for today the Molders meet Mansfield and the game is the 100th of the season. Fifty more games yet to go and Newark is now in third place.

Every fan in the city is trying to figure out the result of the next half hundred and whether Newark will climb to the top before the final gong is rung. Every manager in the league is confident, and as the race for the flag isn't a walkaway, almost any old thing is liable to happen.

Lancaster is this season playing the greatest ball she ever played since getting into the organized game, and her lead is a comfortable one, although it is not an impossible one. Marion has struck the slide and the team that made the wonderful start is now steadily dropping from first to second and possibly farther down the ladder.

Newark has climbed from last to third, the place she secured by climbing over Portsmouth, Mansfield and Lima, and she is now making a strong bid for second. Lima is due to take fall out of Marion and the Molders, stinging from the remembrance of the three they dropped to Mansfield the last time they were there, are going there now to win.

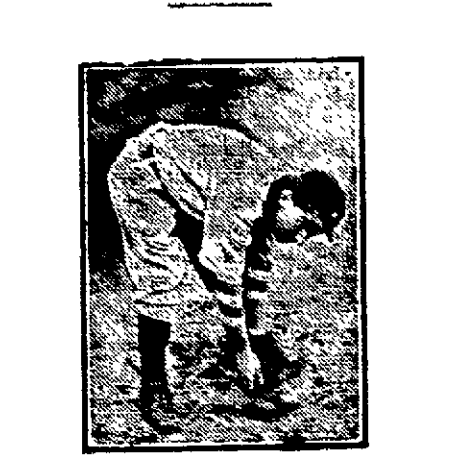

Lima is not playing the ball she did earlier in the season, but within the last week she has fattened from Portsmouth, and Nick Kahl is working hard to pull his team out of fourth place into the 500 crowd.

Mansfield is playing better ball right now than she has at any time

this year and the games that Newark has there will not be walkaways for either team that wins. Portsmouth seems to be hopelessly out of it this year, although Rausick is loading up with the end in view of some other berth than the last one. Seven new men have joined the team.

Oh, the race is a good one, and it's up to their team. The fans will do their part, and the team will have to do the rest. We should win today and make the 100th game a mascot. Last year we won this game and the team from then on steadily forged ahead, so here's hoping.

## M'CLINTOCK IS SIGNED TODAY BY NEWARK

A. C. M'CLINTOCK  
A. C. McLintock, who finished the season last year with the Molders, and who played good ball with the team, has again been signed by Manager Eells, and he joins the team today. All this season he has been playing with the Youngstown team, and it was only after a good deal of corresponding with Manager Wright that he was secured. Last year he played third base with the locals, but where his position will be this year is not known. He is a scrappy little player and the fans will be glad to know that Mac has been signed again.

## NEGRO VOTE IS AROUSED

AT NATIONAL CAPITAL BY THREATS OF OFFICERS TO BLACKLIST THEM.

Minister Gives Taft and Roosevelt a Bitter Raking and Advises Race to Vote for Bryan.

A sermon preached in Washington, D. C., by the Rev. Dr. J. Milton Waldron, pastor of the Shiloh Baptist church of that city, and president of the National Negro American Political league, has aroused the negroes of the Capital City, and the whole country. Choosing as his theme, "What Position Shall the Colored Voter Take in the Present National Contest," the Doctor preached a sermon full of truths that thoroughly aroused the colored people. Dr. Waldron was very vehement throughout the sermon, in the course of which he said:

"I preach this sermon as a protest against the efforts of certain government officials and employees to intimidate the pastor of Shiloh church and the few other ministers of this city who are opposed to the party in power because of its hypocrisy, corruption, and high-handed juggling with the constitution. Several men in this city holding positions under the government have recently approached members of Shiloh and one or two other churches, who are under them, and advised them that they 'put a muzzle on those preachers.' Some of the members of the churches referred to under the inspiration of their government bosses, have threatened these preachers with trouble if they did not eschew politics in their sermons and cease their activity against the party in power.

"I was informed only last night, whether truthfully or not I cannot say, that a list of the members of Shiloh and Galbraith Zion church who are in the employ of the government is being made up and that after election is over if the Republican party is successful, these men are to be dropped from the government pay rolls because they support preachers who are opposed to the Republican administration.

"Opposition to the pastor of Shiloh church first manifested itself when I accepted the position of president of the league, because this league sought to have the party in power do justice to the discharged innocent negro soldiers and to secure to the colored citizens of America the rights guaranteed them under the constitution.

"Since the Republican party has deserted from the principles of Lincoln, Grant and Sumner and become the tool of corporations, designing politicians and predatory wealth; and since its representatives in Congress refused to pass the Foraker bill for the restoration of the discharged innocent negro soldiers to the army; and since the Chicago Republican convention placed the seat of approval upon 'Lily Whiteness' in the South; and

since Mr. Taft, the Presidential candidate of the Republican party, approves Southern disfranchisement of constitutional amendments, and since the Republican party has failed to make an effort during the past twelve years to enforce the fourteenth and fifteenth amendments to the constitution; and since then has, under the lead of President Roosevelt, determined to eliminate the negro from politics, the Negro American league advises all its members and all other colored voters to vote for William J. Bryan next November as the most effective way of rebuking the Republican party and bringing it back to its original principles and securing for the race justice and proper recognition at the hands of said party.

"Every vote cast by a colored man for Bryan is one vote cast for the manhood and political rights of the race and two votes cast against William H. Taft and the Roosevelt politics. Every vote cast by a colored man for the Socialist, the Independence or Prohibition is one vote cast against William H. Taft and the Roosevelt policies.

"For forty years the colored man has voted solidly for one and the same party, and by so doing he has won the contempt of that party and the hatred of the second strongest political party in the country, and then having been deserted by the Republicans, he can not reasonably expect the Democrats to receive him with open arms until a large majority of the race at least let it be understood will not always vote the Republican ticket."

## STREET RAILWAY TRACKS CEMENTED

Said That the Company Anticipates An Attempt to Remove Tracks in the Night.

The Ohio Electric Railway company is now engaging a force of workmen on West Church street, near the division car barns, cementing the tracks at the point that is now involved in a legal action brought by Attorney J. A. Flory.

Mr. Flory brought the action to force the railway company to remove its frogs and switches from this part of the street and property. It is believed that the case will be carried along in the courts and it is hinted that this action of the railway company is in anticipation of a possible attempt to remove the switches "in the dead of night."

## DEFICIT IN U. S. TREASURY GROWS LARGER EACH DAY

Washington, Aug. 1.—The deficit in the Treasury has been mounting up at an alarming rate since the beginning of the new fiscal year and will reach about 24,000,000 with the close of the first month's business.

It was \$22,781,000 at the close of business Thursday. This is over twelve millions more than the deficit which occurred during the first month of the last fiscal year.

In almost every item of government expenditure there has been a heavy increase this year over last so far, while the revenues show a steady falling off. Up to this time last year the expenditures were \$44,949,000, and the receipts \$53,758,000. The figures for the 30 days of this year are \$72,905,000 and \$50,123,000 respectively.

Receipts from customs continue to show the heaviest falling off. Last year they amounted to \$27,809,000 during the first 30 days of July; this year they have been only \$19,731,000. The receipts from internal revenue were \$22,315,000 last year, while this year they have been \$21,101,000. The receipts from miscellaneous sources have, however, nearly trebled this year over last, the figures being \$9,200,000 and \$3,632,000 respectively.

Up to this day last year the expenditures for the army since the first of July had been \$13,330,000; in the past 30 days they have been \$19,000,000; for pensions, last year, \$11,930,000; this year \$13,480,000; for the navy, last year, \$8,630,000; this year \$9,050,000; for civil and miscellaneous last year, \$14,450,000; this year \$19,370,000.

Unless there is a let-up in the rate of increase of the deficit as the year grows older, the total at the end of the year will be something huge.

## DEEDS, NOT WORDS.

Newark People Have Absolute Proof of Deeds at Home.

It's not words, but deeds that prove true merit. The deeds of Doan's Kidney Pills, for Newark kidney sufferers, have made their local reputation.

Proof lies in the testimony of Newark people who have been cured to stay cured.

Charles W. Manville, residing at 7 Lansing Block, Newark, Ohio, says: "I had a severe attack of grippe which weakened my kidneys and as a result I suffered from pains in my back and a disordered condition of my kidney secretions. There was a constant dull aching in my back and through my loins, accompanied by sharp shooting twinges which annoyed me both day and night. I tried numerous remedies but obtained only temporary relief and was gradually becoming run down in health. Hearing of Doan's Kidney Pills I procured a box at Grayton's drug store, began using them and the result was a complete cure." (From statement given Nov. 10, 1904.)

## CONFIRMED PROOF.

On Nov. 26, 1907, Mr. Manville said: "I am pleased to reiterate my former testimonial in favor of Doan's Kidney Pills, as the results I obtained from their use have proven permanent. Doan's Kidney Pills acted so promptly in my case that I have the greatest confidence in them."

### How People Lose Their Money

By concealing it about their person; by stowing it away in mugs, jugs and jars; by sewing it up in skirts and ticks; by tucking it under the couches and carpets in cupboards and bureau drawers; these are some of the ways by which people lose their money and sometimes their lives.

### How People Save Their Money

By depositing it in a good, reliable bank. Confident that this bank fully meets the public's needs, we tender its services to all who believe in keeping on the safe side.

### THREE TIMES

Hospital Tumbler Cracked With a Click, Announcing a Child's Death Each Time.

Cincinnati, Aug. 1.—Hospital attendants are not superstitious. This may be because they see death in its multiple forms, and therefore become calloused and skeptical. An incident at the city hospital yesterday, however, will long be a subject for conjecture and discussion.

On the desk in the receiving ward a water glass stainless and very heavy, is kept for the use of the employees. To guard against its breakage it is placed in a corner of the desk where nothing can strike it. Yesterday afternoon, when there were no patients in the ward, a sudden click was heard. Archie Miller, an attendant, looked at the glass and noticed a crack about half an inch long in it which had not been there before. Scarcely ten minutes elapsed when the telegraph instrument announced the death of Louisa Young in the children's ward.

The coincidence might have been forgotten had not 20 minutes later

the same click been heard on the desk, when Miller again looked at the glass and noticed a second crack a trifle longer than the first. Again there was a short interval of silence when the tick spoke once more, telling of the death of Edith Williams, also in the children's ward. By this time the strange warning became a subject of comment in the ward.

A third time, however, the omen was repeated, the glass sprung another crack, and shortly after, the death of Joseph Manning, who lived at 424 West Third street, was announced. "Gee, willkins!" shouted Miller turning pale. "Say, I'd like to go across the street." And he did.

### ACTOR HAS VOICE INSURED

Leading Man for White Stock Company Carries \$12,000 Policy Against Loss of Voice.

To the average theatre-goer the sight of an actor playing in a long and difficult role is taken, as a matter of course, and little thought is given to the tedious and oftentimes trying labor with which he is burdened in interpreting his part. The voice is the part of an actor most easily effected and it behooves one to take the most watchful care of the throat. Mr. Arnold C. Baldwin, the clever and handsome leading man of the White Stock company, which appears next week only, at Idlewild has one of the most beautiful speaking voices on the American stage and consequently, is in constant danger of its giving way under the terrific strain several years ago Mr. Baldwin had a severe cold contracted through exposure, and was very seriously handicapped for the time being. It was then that he decided to insure his voice and today he is the only dramatic leading man in the country whose voice is insured. He carries a policy for \$12,000 in case of absolute loss of voice for stage usage in the Providence Mutual Insurance company—the same firm that insures Milk Pitzer Scheff and Mrs. Schumann Heink. The premium on the policy costs Mr. Baldwin \$20 a year or \$5 a week.

That the theatres are becoming more strict each year in procuring the workers in their service is evidenced by an order issued last week by the city of New York to the road men. The order is to the effect that each employee must make a sworn statement before a notary as to his age.

### REUNION

Of Billman Family Held Today at Rain Rock in Eden Township. Judge Brister Speaks.

Saturday was Billman day at the romantic Rain Rock in Eden township, about 10 miles northeast of Newark. It was the occasion of the reunion of the Billman family and there was a large crowd present composed not only of the numerous relations, but many friends. The day was spent in having a jolly good time, and games of all kinds were participated in while music enlivened the occasion. Addresses were made by Judge E. M. P. Brister, Atty. Gen. J. C. Marriott, of this city.

The principal feature of the reunion, however, was the big dinner that was served at the noon hour. This was one of the most successful reunions of this family ever held and will be long remembered.
